**Fund Manager Commentary**

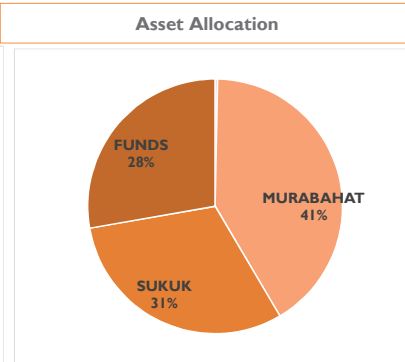

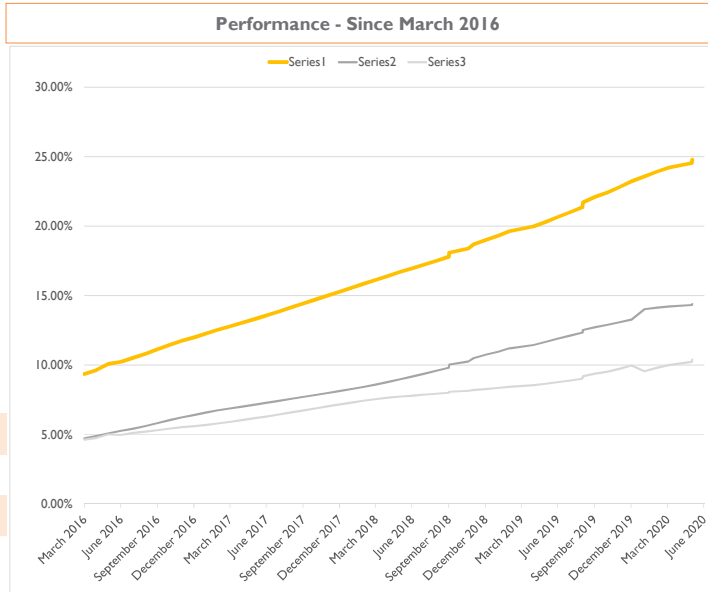

Itqan Murabahat and Sukuk Fund continues to strongly outperform its mandated benchmark during this period of 2020, achieving an annualized return of 3.25%, bringing the cumulative returns since the fund was established to 24.50% and the cumulative alpha rate to 10.18% during the same period.

The region's fixed income markets have been affected by the current economic affairs. In this context, the Fund Manager has been more cautious in the selection of Sukuk and asset allocation in the Fund while continuing to invest in high-yield sukuk and Murabaha with prestigious local and Gulf banks to achieve strong performance during the second quarter of the year.

Global fixed income markets witnessed a rise in prices during the period under review, as a result of the global economic slowdown and the fall of oil prices. The deposit interest rates fell as the Federal Reserve Bank announced an interest rate cut as a result of the emerging global challenges and the economic threat posed by the coronavirus. All of which constituted a challenge for the Fund Manager to maintain the performance of the Fund during the upcoming period.
