Itqan Murabahat and Sukuk Fund continues to strongly outperform its mandated benchmark during the third quarter of 2019, achieving an annualized return of 3.41%, bringing the cumulative returns since the fund was established to 21.71% and the cumulative alpha rate to 9.19% during the same period.

Global fixed income markets witnessed a rise in sukuk prices in the third quarter, as the Federal Reserve Bank slashed interest rates, which increased the demand for US dollar-denominated securities that are under scrutiny. All of which constituted a challenge for the Fund Manager to maintain the performance of the Fund during the upcoming period.

Saudi Arabia's GDP is expected to grow as a result of diversified investment portfolio, high oil prices, and increased government spending on development projects.

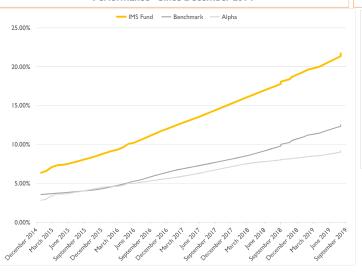

The region's fixed income markets have been affected by current political affairs. In this context, the Fund Manager has been more cautious in the selection of Sukuk and asset allocation in the Fund while continuing to invest in high-yield sukuk and Murabaha with prestigious local and Gulf banks to achieve strong performance during third quarter of the year.

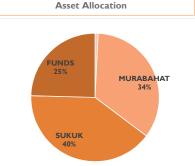

| Fun | d Performance | е |
|--------------------|---------------|-----------|
| Period | Fund | Benchmark |
| 2014 | 1.78% | 0.82% |
| 2015 | 2.31% | 0.72% |
| 2016 | 2.99% | 2.03% |
| 2017 | 2.97% | 1.66% |
| 2018 | 2.95% | 2.18% |
